Phone System with minimum Ownership Cost

Pay Per Phone Line and Not Per User

Cebod Telecom offers phone plans based on number of phone lines required and not based on number of users in your company. Every employee wil never be on the phone at the exact same time and does not need its own dedicated phone line, so why pay for it?

For example, 20 employee office may only need 8 phone lines.
Total Cost= **$190 per month with all-inclusive premium features, including call forwarding, conferencing and fax service.**

Easy to Install and Set Up

Connect the preconfigured voip phones to your existing internet to make and recieve calls, using **PBX features.** Manage your phone system settings online easily. Use an adapater to connect traditonal phone and fax machine.
