

# BUSINESS PHONE SYSTEM FOR REAL ESTATE

## Pay per Line, Not per user

Pay for number of phone lines required, not for every user in the company. Receive 50+ features and support with every phone plan.

## Professional Image

Create neighborhood presence with local numbers and use easy to remember toll free numbers to serve as a single point of contact for multiple agents or offices.

## Auto Attendant

Virtual receptionist welcomes clients with custom greetings and directs them to the right agent or specific office location based on pre-determined caller menu.

## Email to Electronic Fax

Send and receive faxes from clients or between offices without a fax machine.

## Follow Me

Never miss a lead ever. Redirect your incoming to cellphone, land-line, or any extension.

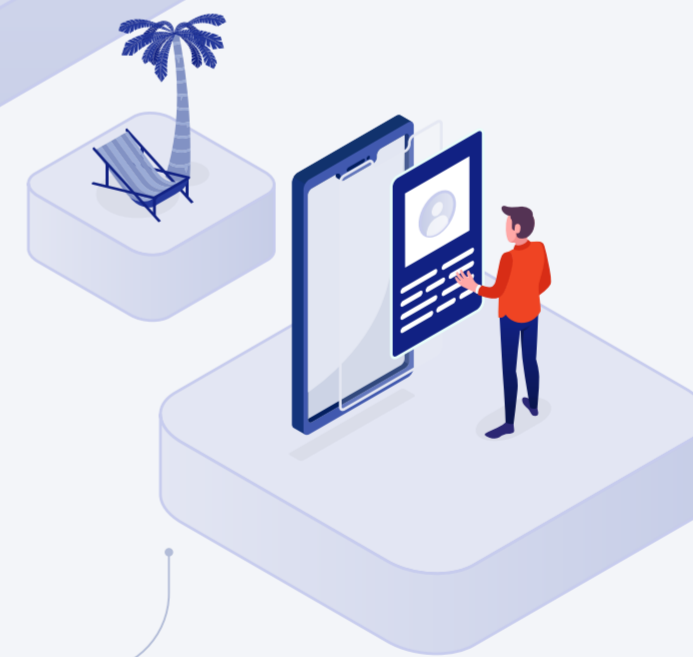

## Custom Greetings

Choose the default greeting or customize it with personal greetings, holiday messages, music or events.

## Soft Phone and Apps

Use smartphone or desktop apps to contact clients, send bulk SMS, conduct conference/video calls and share files.

## Advanced Business Phone System for Realtors

Business phone system from Cebod Telecom offers communication solutions for building long term relationships with new and existing valued clients. Whether you are a solo agent or a real estate office of 25+ partners, your business will flourish with advanced PBX features and 24/7 customer service.
